

Free Cool on Grid DC Inverter solar air-conditioner PV FCDC-72GW/PV

Main Features

1. No need any electricity if in sunshine day and can automatic switch to AC power at night, also can provide the power to grid electricity, save the cost every time.
2. Adopt high quality and advanced Panasonic or Toshiba DC inverter compressor
3. Remote control and easy installation
4. Heating and cooling & cooling only functions
5. Our solar air conditioner can provide with frequency 50 hz/60hz, refrigerant R410a Voltage 110v-380v
6. CE, ROHS SASO and SAA certification
7. Quite and Environment protection
8. Super luxurious appearance and LED display
9. DC inverter solar air conditioner can run smoothly at -10°C to 55°C
10. Precise temperature control with $\pm 0.5^{\circ}\text{C}$ from setting temperature
11. Fast delivery and good after-sales service

Specifications

On-grid DC inverter solar air conditioner
 Low electricity consumption
 Wide voltage from 110V-380V
 Environment friendly

Brief Introduction:

- On Grid DC inverter solar air conditioner takes the most leading technology in the world market.
- When in sunny day, the solar panel can provide the power together with on grid electricity power to provide to air conditioner for start running, when it running stable, the air conditioner can running just with the power from solar panel, so it no need any electricity at this time.
- And when the air conditioner stop running at sunny day, the solar panel can produce the power to return to electricity grid, then it can let the power meter reverse, then save the electricity cost.
- And when in cloudy day or night time, the air conditioner can automatic to switch to electricity power.

Technical Parameter:

On Grid DC inverter type solar air conditioner		
Model		FCDC-72GW/PV
	BTU	(24000BTU)
Capacity	Cooling	7200W
	Heating	8000W
Input power(w)		1215(550-2100)
Current(A)		2.43~6.82
Power Supply		220V/50/60Hz
Gas		R410A
Air flow (m ³ /hour)		1050
Solar panel (Mono)		250W/30V
Noise(dB A)	Indoor	46
	Outdoor	56
Weight	solar panel(kg)	28
	Indoor(kg)	19
	Outdoor(kg)	62
Dimension solar panel		1640*990*40mm
Dimension In unit		1010*320*210mm
Dimension Out unit		800*310*685mm
Dimension solar panel Package		1680*1010*60mm
Dimension In Package		1070*395*285mm
Dimension Out Package		930*390*760mm

Free Cool solar air conditioner for eco friendly and save the earth and money

Thoroughly Purified Air
Creates a Healthy & Refreshing Space
Cold Plasma

Photocatalytic Filter

Effective sterilization with more than 90% of bacteria killed Odor removal Air nutrition improvement with more negative oxygen ions

This filter is able to completely oxidize and degrade organic contaminants. It can effectively eliminate 99.9% of bacteria, viruses and unpleasant smell.

Catching Filter

Catching extracted from green tea. It can effectively eliminate 95% of carcinogenic agents, such as staphylococcus, streptococcus, salmonella, etc.

Electrostatic Deducing Generator

Active Carbon Filter

By making use of the principle of electrostatic adherence, it can effectively absorb the dust from the air. With detachable design, it is easy for complete cleaning to ensure the quality air.

Activated carbon can effectively adsorb smoke, pet odors, and other unpleasant odors.

Silver Ion Filter

Silver ion is able to sterilize 99% of bacteria by suppressing proliferation of mold and bacteria and preventing the cause of unpleasant odors.
