

WATER PURIFICATION SYSTEMS 5 - 7 - 9 STAGE WITH HOT AND NORMAL

Model No: FCWP 970

Household 7 to 9 Stages
Ultrafiltration filter / free Cool
Water Purification System with
Pressure Tank

This is a new simple style water purifier, this product is with 5~ 7 and 9 stages filtration filters, the ultrafiltration membrane separation technology uses a high-precision purely physical filtration principle with a filtration accuracy of 0.01 μm . And it can effectively remove rust, sediment, colloids, algae, Giardia & Cryptosporidium, bacteria and other harmful substance in water, while remaining the beneficial minerals.

Mineral RO Technology

Free Cool Mineral RO TM Technology retains essential natural minerals in purified water using the TDS Controller, thereby providing 100% safe and tasty drinking water.
