

WATER PURIFICATION SYSTEMS

6 STAGE

1st STAGE

SEDIMENT FILTER

Remove sediments, dust, sand particles and rust, down to 5microns.

2st STAGE

GAC FILTER

Gets rid of unpleasant chlorine tastes & odors cloudiness and colors

3st STAGE

CTO CARBON FILTER

Removes any residual color tastes & Odors, plus compounding prefilter's Efficiency and extending membrane's life

4st STAGE

RO MEMBRANE

75 GPD 0,0001 micron rejects up to 99% of 1000+contaminants.

5st STAGE

POST CARON FILTER

Removes any possible residual tastes and odors for the tank.

6st STAGE

POST CARON FILTER

Produces PH-balance water and gives back healthy mineral.

Model No: FCWP 730

Model No: FWP 730

- ✔ 6 Stage : PP + GAC +CTO +RO +Post Carbon
- ✔ Type: Reverse Osmosis Systems
- ✔ Purified Water Capacity :75 Gallon per day (284 L/Day)
- ✔ Material :Food grade PP plastic
- ✔ Type of Flushing
- ✔ RO Membrane :75G Free Cool Membrane
- ✔ Booster Pump:100 GPT Free Cool Pump
- ✔ Adaptor: 100-240,50/60Hz Plug
- ✔ Working temperatue:5-40 C/41-104F
- ✔ Working Pressur:0.1 ~ 0.4MPa
- ✔ Water Tank : 4Gallon FRP Pressure tank
- ✔ Water Faucet: Stainless Steel Pressure tank
- ✔ Filter Lifespan :Per-Filter PP,CTO,GAC 3-4months,
- ✔ RO membrane, 24 months Post Filter 12Months
